Subject: Draft IEUA 2010 Urban Water Management Plan

---

Please find enclosed a CD of the Draft IEUA 2010 Regional Urban Water Management Plan (UWMP) for your review.

We have worked closely with the local cities and retail agencies to develop the water demand and supply numbers. The population projections were developed by the local cities and retail agencies, which primarily used Southern California Association of Governments (SCAG) forecasts.

We would particularly appreciate your review of the water supply and population numbers to ensure that these are consistent with your projections. We are also very interested in hearing your comments on Chapter 4 (Water Use Efficiency Programs) and on Chapter 5 (Recycled Water Program) to ensure consistency among these programs as well.

We will host a workshop at IEUA's office on Wednesday April 27<sup>th</sup> from 2pm – 4pm to review the Draft IEUA 2010 UWMP and receive comments. Please feel free to send additional comments to us by May 25<sup>th</sup>. We will incorporate the proposed changes into the Final IEUA 2010 UWMP prior to Board adoption in June.

Thank you for your time and consideration in reviewing this document. Please call Ryan Shaw at 909.993.1635 should you have any questions.
